INTRODUCTION

Staying on top of all the requirements that must be met in a world that is always changing, revolutionizing, and growing through innovation becomes more crucial every day. As things change, new opportunities emerge, and the organization that seizes them will reap the most benefits. To take advantage of these prospects, we must stay current with the latest requirements that come with any invention or discovery in any field.

Speed-Fi is a multi-functional technological application offering a range of decentralized finance (DeFi) services, as well as a multi-network launchpad and non-fungible token (NFT) supermarkets. Speed-Fi is a cutting-edge next-generation decentralized finance application that aims to improve users' experiences by bridging the gap between technology, fairness, and enjoyment. The fully automated and decentralized ecosystem, powered by smart contracts that supports 15+ Blockchain networks including Ethereum, Binance, Avalanche, Polygon, Tron, Fantom, etc; is designed to bridge the gap between a blockchain gaming/finance experience and traditional practice, while keeping the lottery and betting processes and values at the core of the business model. In a single platform, users can get the facility of betting, gaming, staking, swapping, launchpad and lottery.

Speed-Fi has a vast ecosystem that includes multi-network DEX, Multi-network Launchpad, Multi-network NFT marketplace, and Web3 Play-to-Earn VR Car Racing game. By combining all these features, Speed-Fi is adding value to modern blockchain technology by giving a lot of opportunities to its users and facilitates them by earning passive income through entertainment. Businesses can now establish the groundwork for developing areas like digital assets, NFT, gaming industry, lottery, and gambling in the most smooth way possible, while de-risking the development process, thanks to the growing suite of blockchain infrastructure services and advanced resources.

The goal of Speed-Fi App is to bring the brand to life through a cultural lens, making it stronger and more adaptable over time. It improves the efficiency and accessibility of digital assets for everyone. Time stamping, transparency, and data decentralization are all aspects that we believe are critical for making it a long-term viable and decentralized ecosystem. Technological breakthroughs have ushered in a financial revolution that will benefit everyone's financial connectivity, empowerment, and skills. In essence, Speed-Fi ecosystem is a one-stop shop for a variety of services.

VISION

We foresee a world where people can receive whatever they need in one Blockchain ecosystem, and wealth-building strategies that were previously only available to the wealthy become available to everyone, restoring people's control over their financial systems. The Speed-Fi network will build a breakthrough ecosystem to attract more people into digital assets, allowing them to earn money by staking, Buying/Selling, or trading NFTs, playing games, betting and through lottery while keeping their privacy, security, authority, and autonomy.

The Speed-Fi digital asset should be anticipated to develop an ecosystem built on strong monetary regulations and a stable decentralized basis.

Speed-Fi Vision is Encapsulated With Three Main Components:

VISION STATEMENT

Community-Focused

More focused on supporting and caring for community

Entertainment

Giving pleasure and delight to audience

Wealth-Building

Embarking new wealth raising strategies worldwide

MISSION

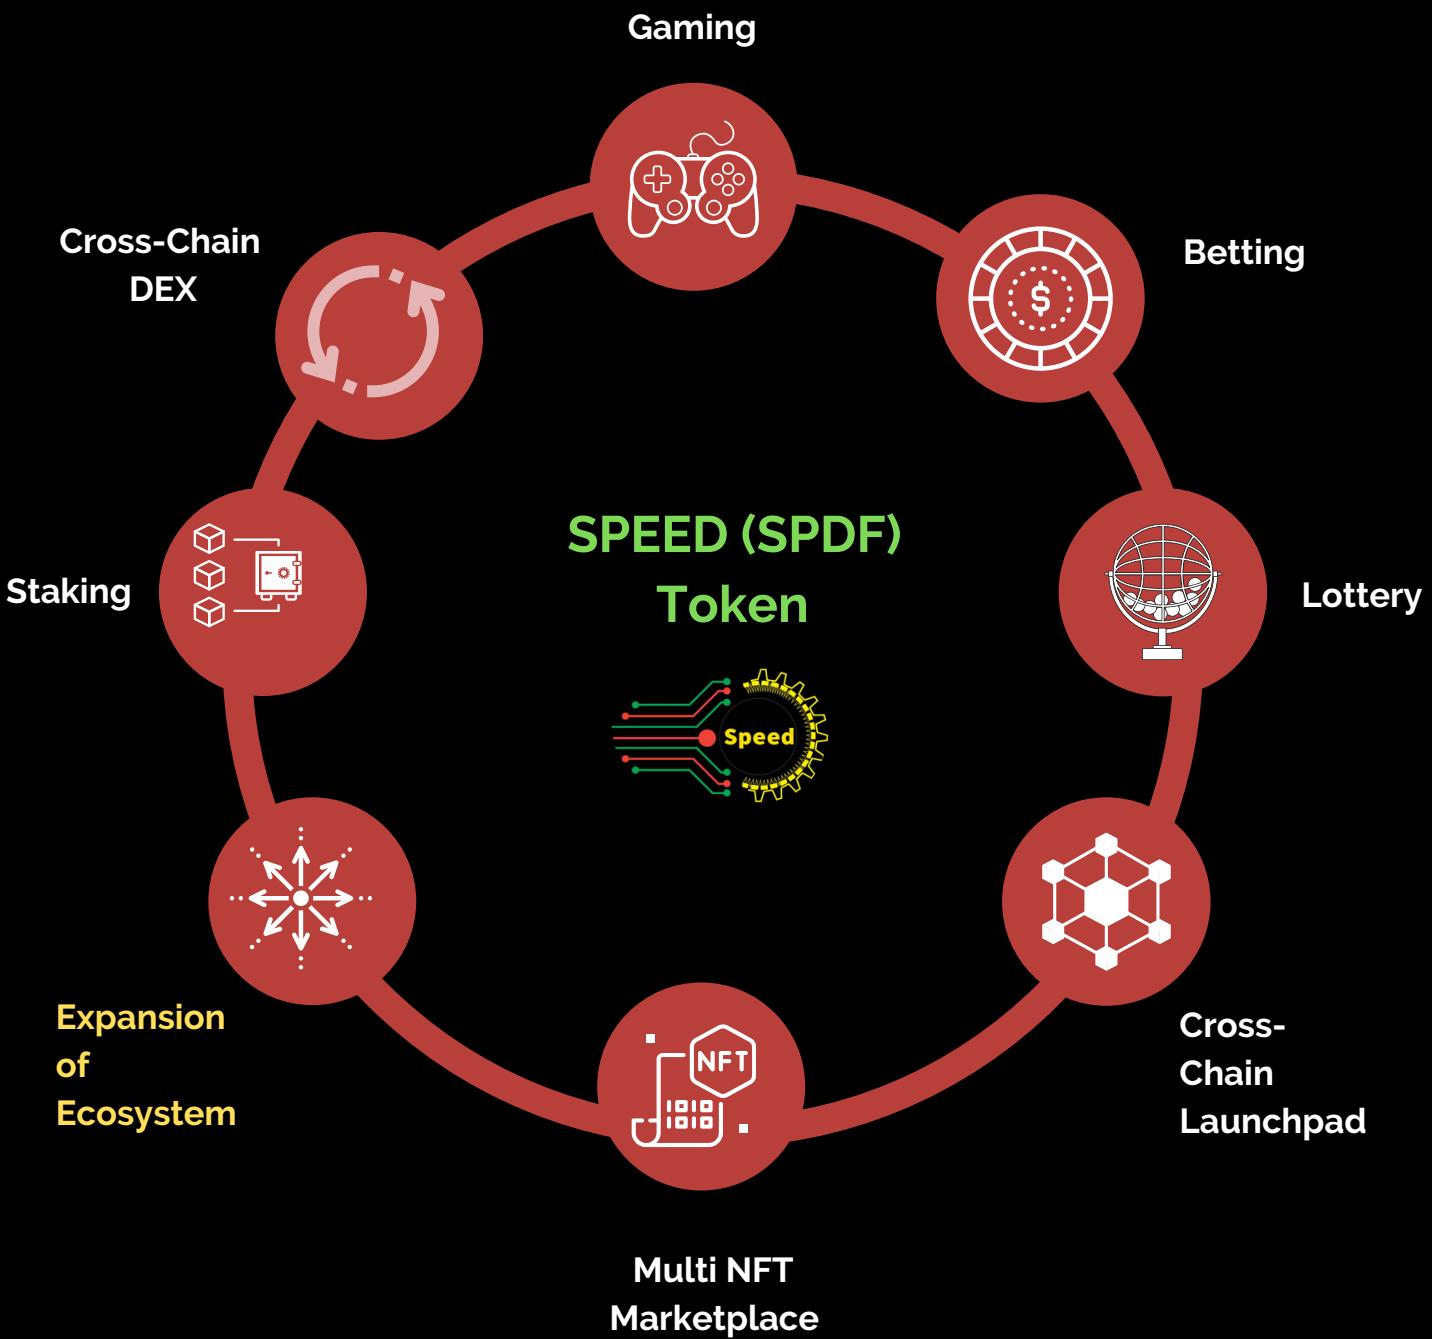

Our mission is to take "Speed-Fi" to new heights by providing customers with an innovative, user-friendly, one-stop-shop platform to give everyone in the world an equal chance to manage and improve their financial security. Speed-Fi App's future and mission is to integrate the real world and the digital space unlimited resource of high-end, exclusive, futuristic, sophisticated space to live and interact in for its Speed-Fi App community and society in the metaverse universe. Speed-Fi is to provide a decentralized financial platform that is provably fair and independent of any particular country, authority, or member of our team. Its goal is to become the most popular and transparent app on the planet.

- Giving people the opportunities of entertainment and fun with generating income
- Our mission includes the creation of a next-generation complete all-in-one platform and giving every person in the world an equal chance to manage and improve their financial security by using the Speed-Fi App.
- Implementing innovative projects.
- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.

ECOSYSTEM

VALUES OF SPEED-FI

Community

Starting up a project like Speed-Fi is not without its struggles but in the end we have discovered that having a strong community keeps us from drowning. At the beginning, we wondered if projects could succeed by working together in groups. Speed-Fi proved that it could be done when driven by the collective effort and investments of our community. Our core members are what make us who we are, and they're part of our success story every bit as much as we all are.

Utility

Speed-Fi believes that the best way to generate value in the blockchain space is through utility. The company was founded on the principle of giving communities a means for loyalty programs, rewards and entertainment, and two-factor authentication which are all things that people will embrace owing to its community-driven instinct. Our App provide real benefits for all of our users due to their unique properties, because people can be rewarded through lottery and betting.

Inclusivity

Providing equal opportunities and resources is a priority for Speed-Fi.

Interconnectivity

Speed-Fi believes in creating a network through which the right members with their special skills and talents can interact and learn alongside one another to create an effective system at work. Each of these members relies on the other for ultimate success. When we put our energies together into a joint venture, this team becomes greater than its own sum of parts working as individual entity.

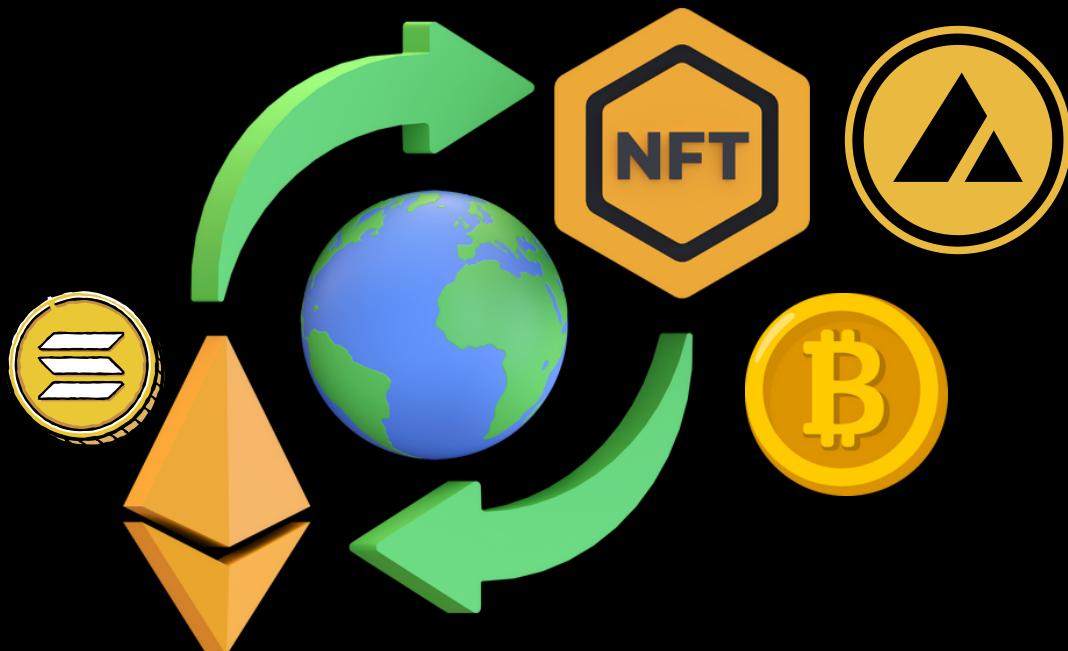

CROSS-CHAIN DEX & LAUNCHPAD

Speed-Fi swapping platform is designed to allow users to securely Swap their tokens without relying on 3rd party services or losing control over their private keys. As a decentralized exchange, all trades are automatically executed via smart contracts — completely eliminating counterpart risks.

Speed-Fi will also provide a platform for early investors to participate in ICO Presales of new projects to be launched of multiple blockchains.

There are many great reasons our users love using Multi-Network Swap;

- Quickly swap into an asset you believe will grow.
- Move out of a volatile asset into one of our stable coins.
- Speed-Fi Swap platforms are integrated into the top cryptocurrency trading exchanges in the world, this allows users to search and select the best rates for the transaction.
- Security is at the core of everything we do.

CROSS-CHAIN NFT MARKETPLACE

Speed-Fi allows creators to trade their NFTs and makes it simple to sell or auction them. A wide range of users, including musicians and animators, can utilize Speed-Fi App to produce, distribute, buy, sell, and exchange their digital goods. The platform enables creators to build digital assets without understanding how to code by allowing them to leverage smart contracts on the blockchain. The vast variety of digital assets, which can range from art to games, is what makes Speed-Fi so enticing to both makers and collectors. Users can search any NFT marketplace to buy and sell NFTs and they can explore new world of NFTs by using Speed-Fi. It is compatible, safe and reliable in its progress because it supports multiple blockchains.

Ownership Rights

The primary benefit of non-fungible tokens is the ability to prove ownership. NFTs can assist in linking ownership to a single account because they are on a blockchain network.

Authenticity

The advantages of non-fungible tokens are essentially determined by their rarity. NFTs are created on the blockchain, which means they are tied to one-of-a-kind data. The particular qualities of NFTs reveal their ability to add value. Simultaneously, NFT manufacturers have the option of releasing a restricted number of NFTs to create supply scarcity.

Fraud Proof

They are easily transferred and unaffected by fraud.

NFT MARKET VALUE (BY SEGMENTS)

Last year, the popularity of non-fungible tokens skyrocketed, with multi million-dollar sales smashing records. According to a new estimate, the NFT market will surpass \$40 billion in 2021. According to DappRadar, the trade volume of NFTs in 2021 was \$24.9 billion. This is an increase from \$95 million in 2020. In 2021, there were 2.7 million unique active wallets as a proxy for users, with 49 percent of those users connected to NFT games. Despite the average NFT price fluctuating between \$6,900 and \$1,300 in January, a record-breaking 2.4 million NFTs (worth \$4.8 billion) were traded on OpenSea. The total sales value over the previous 30 days was around 87 million dollars as of February 15, 2022.

In 2020, NFT projects in art and gaming were both valued several millions of dollars, but they were significantly smaller than in 2021.

| CHARACTERISTICS | 2018 | 2019 | 2020 | 2021 |
|-----------------|--------|-------|-------|----------|
| COLLECTIBLE | 36.77 | 66.78 | | |

NFT MARKET SIZE (2022-2028)

The global Non-Fungible Token (NFT) market is expected to grow at a CAGR of 22.05 percent between 2022 and 2028, from US \$1.59 billion in 2021 to US \$7.63 billion in 2028. Taking into account the economic impact of the health issue, Art & Collectibles, which accounted for 69.98 percent of the worldwide Non-Fungible Token (NFT) market in 2021, is expected to reach US\$ 4.68 billion by 2028, increasing at a revised 20.65% CAGR in the post-COVID-19 period. During the forecast period, the CAGR for the Primary Market segment has been changed to 9.14 percent.

In 2021, China's Non-Fungible Token(NFT) market will be worth US \$91.85 million, while North America and Europe's Non-Fungible Token(NFT) markets will be worth US\$ 517.91 million and US\$ 479.58 million, respectively. North America's share will be 32.56 percent in 2021, while Europe's share will be 30.15 percent, and China's share will be 6.21 percent in 2028, with a CAGR of 23.43 percent over the analyzed period. Japan, South Korea, and Southeast Asia are notable Asian markets, with CAGRs of 23.60 percent, 21.31 percent, and 18.71 percent for the next six years, respectively. Germany's Non-Fungible Token (NFT) market is expected to reach US\$ 453.69 million by 2028, representing a CAGR of 22.21 percent over the forecast period.

THE NFT MARKETPLACE: BY THE NUMBERS

According to the annual NFT Market Report, total NFT sales surpassed \$17.6 billion last year, a more than 200-fold rise from the previous year.

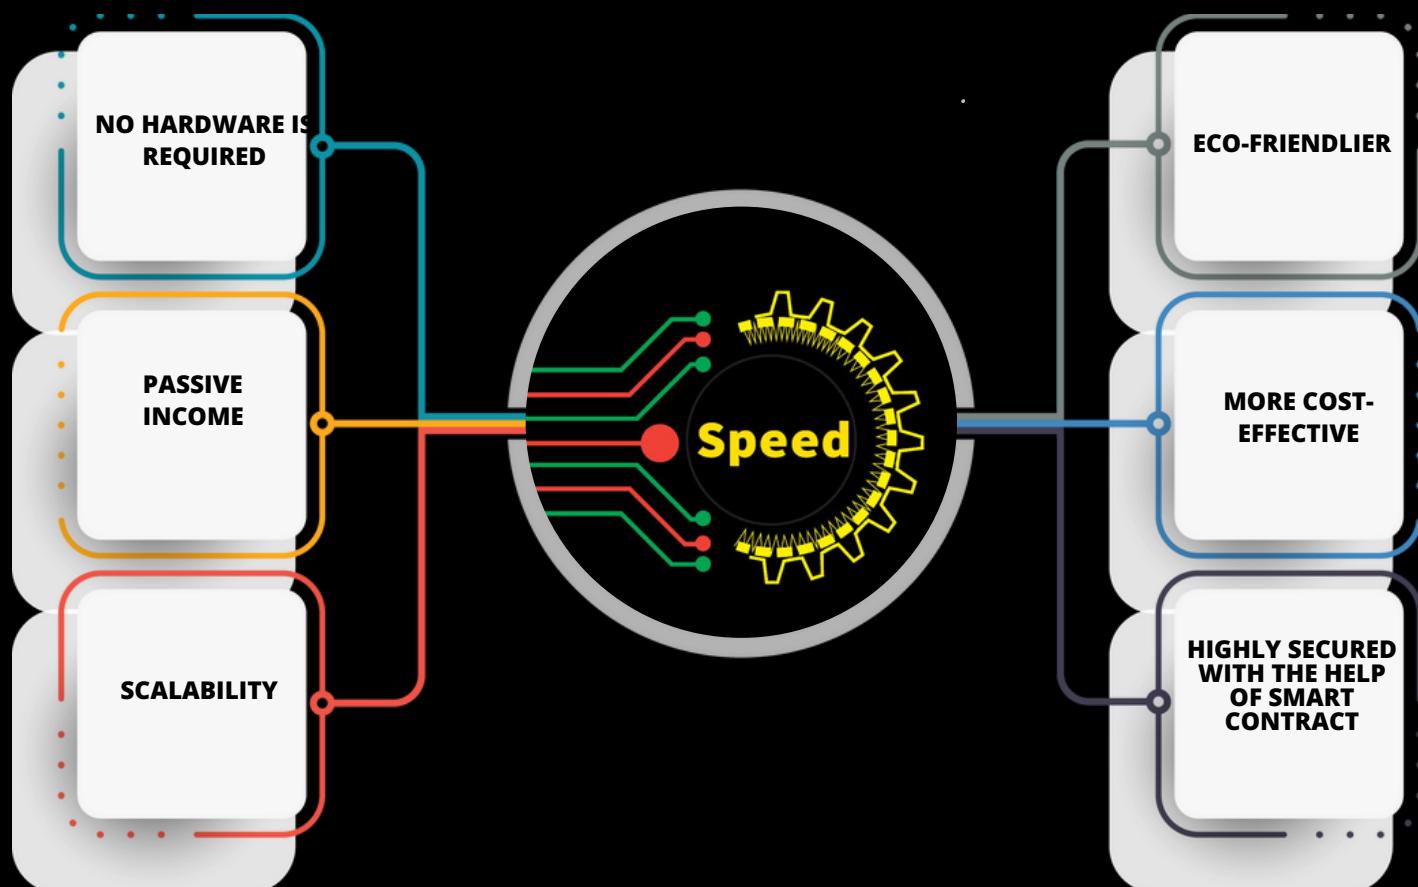

SPEED STAKING

Staking is a great way to maximize your earnings on digital assets that would otherwise be sitting in your wallet. Once you have staked your assets, you can earn staking rewards on top of your staked amount and grow them further by compounding those future rewards. The staking platforms enable investors to essentially obtain staking rewards that have popped up in response to the rapid growth of crypto stealthily. Therefore, if you're looking to earn a very passive income through staking, this is essentially the place to be, which is quite significant.

Speed-Fi helps its users to stake their coin and tokens. Our staking platform will help the community increase the number of Speed tokens that users stake.

There are quantifiable benefits of staking coin with Speed-Fi ecosystem:

SPEED GAME

Speed-Fi has a feature of Free-to-Play and Free-to-Earn video game in which players may explore new places and construct structures to collect resources, level up, compete, interact, and earn. Speed Game is a futuristic Web3 P2E VR Car Racing game that takes players on an incredible blockchain journey full of adventures and opportunities.

Speed game has a unique feature of virtual reality (VR) and rewards earning.

Players by competing with each other and by leveling up will earn rewards and incentives.

Speed-Fi App is an open Gaming ecosystem. It has the following features:

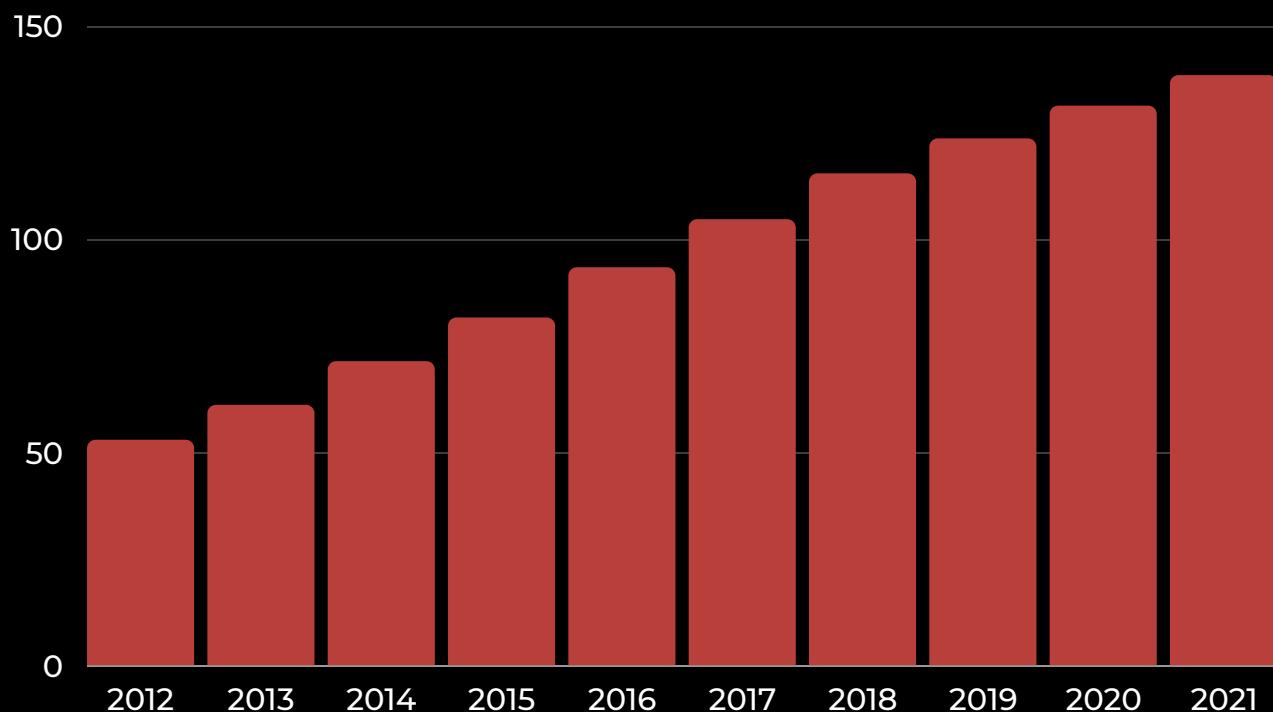

- A car racing game to compete and earn rewards
- Adventure in racing contest.
- Complete quests, clear levels by fulfilling requirements.
- Game issue and extending
- Usage of Virtual Reality (VR)
- Digital Assets Rights Management & Digital Assets Exchange
- Player Community Interaction & Player Database
- Speed-Fi App allowing players or token investors to compound their profits by Holding

GLOBAL GAMING INDUSTRY

In recent years, the global gaming sector has exploded. According to Fortune Business Insights, the worldwide gaming market is predicted to grow at a CAGR of 13.20 percent between 2021 and 2028, reaching USD 545.98 billion. According to Fortune Business Insight's report "Gaming Market, 2021-2028," the market was worth USD 203.12 billion in 2020.

The worldwide gaming market is expected to reach 268.8 billion US dollars per year in 2025, up from 178 billion US dollars in 2021. Despite considerable growth in Asia, North America is expected to remain the world's top-grossing gaming market. In-game purchases are expected to be worth more than 74 million dollars globally by 2025. According to reports, the video game industry's revenue was \$78.61 billion in 2017 and is expected to exceed \$90 billion by 2020. The video game business is expected to increase at a rate of 2.29 percent annually from 2020 to 2024, according to statistics on revenue by year.

LOTTERY AND BETTING

Speed-Fi is one of the amazing blockchain platform that is providing many facilities including betting and lottery in a single platform. Users who involve themselves in these activities can earn income with pleasure and delight. Lotteries are popular because they offer both money and a challenge. The four primary motivations for purchasing lotteries are the desire to win, impulse/curiosity, feeling lucky, and enjoyment.

The possibility of winning the jackpot was the strongest predictor of lottery involvement, and the possibility of winning the jackpot was the strongest predictor of lottery participation.

As we talk about betting, it has become a huge entertaining industry like games. People are rushing towards it. Blockchain has changed the concept of gambling as the people have resources and access online apps and platforms to take part in betting.

MARKET OVERVIEW

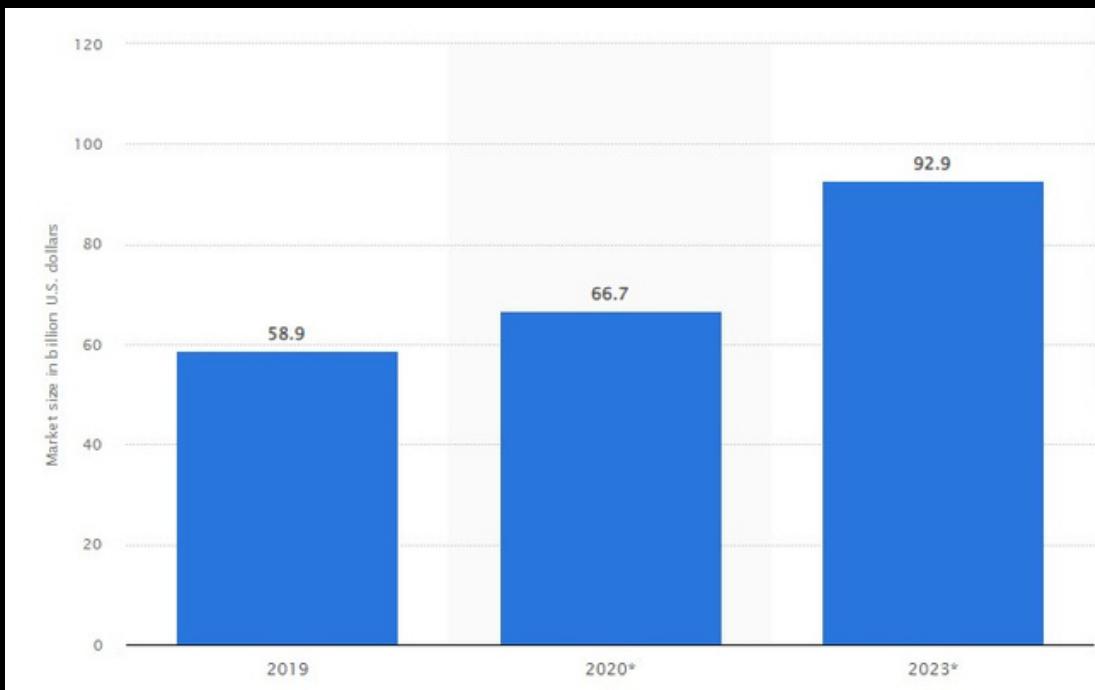

Since the dawn of time, lotteries have been a part of human history. Lotteries were documented in the Old Testament in various ways; Roman emperors gave them for amusement; French kings used them to balance state deficits; and modern states employ lotteries to fund a significant portion of their public works. Lotteries have grown into a multi billion-dollar industry encompassing more than 100 countries and 200 jurisdictions, and they are still permitted in countries where traditional betting and casino-style gambling are prohibited. As a result, lotteries' part of the overall gaming business has increased from 2.3 percent in 2013 to 4% in 2016, with a current 29 percent share of global gaming income.

MARKET OVERVIEW

The online lottery industry was worth around USD 7.5 billion in 2019 and is predicted to reach USD 12 billion by 2026, growing at an annual rate of 8% over the forecast period. The global lottery market is worth \$398 billion (more than the combined value of the SaaS, video game, and film industries) and is expected to grow to \$625 billion by 2025. Its average annual growth rate exceeds 8% and is nearly three times that of the global economy. The online gaming market is expected to be worth \$66.72 billion in 2020, while the online lottery market is expected to be worth \$10.07 billion (15.1 percent).

In 2023, the worldwide online gambling business is expected to be worth more than 92.9 billion dollars. The market is currently valued at almost 59 billion dollars, but it is expected to increase in the next years. In 2019, the global casino and internet gambling industry was predicted to be worth around 265 billion US dollars, up from the previous year. The coronavirus (COVID-19) pandemic, however, caused the industry to drop to 202.54 billion USD in 2020. The market is expected to reach 230.86 billion in 2021. In the year 2021, the gambling market in the United States is expected to be worth US\$262.4 billion. By 2026, Asia-Pacific (including China) is expected to have a market size of US\$322.4 billion, growing at a CAGR of 4.4 percent over the research period. Canada and Europe are two other important geographic markets, with growth forecasts of 3.1 percent and 3.5 percent, respectively, over the analysis period.

WHY SPEED-FI

Open for Global Participants

Speed-Fi facilitates global transactions and bring them closer to a wider audience. An added benefit of Speed-Fi use is that it's completely decentralized, so trading can be done freely across borders. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. Speed-Fi has no border so these can be used no matter where you are located globally. This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

Multi Blockchain

Speed-Fi ecosystem supports 15+ Blockchain Networks.

Transparency & Immutability

With Speed-Fi, each time exchange of tokens is recorded on the blockchain, an audit trail is present to trace where the assets came from and where it went. This can not only help improve security and prevent fraud in exchange-related businesses, but it can also help verify the authenticity of the traded assets.

Lower Fees and Security

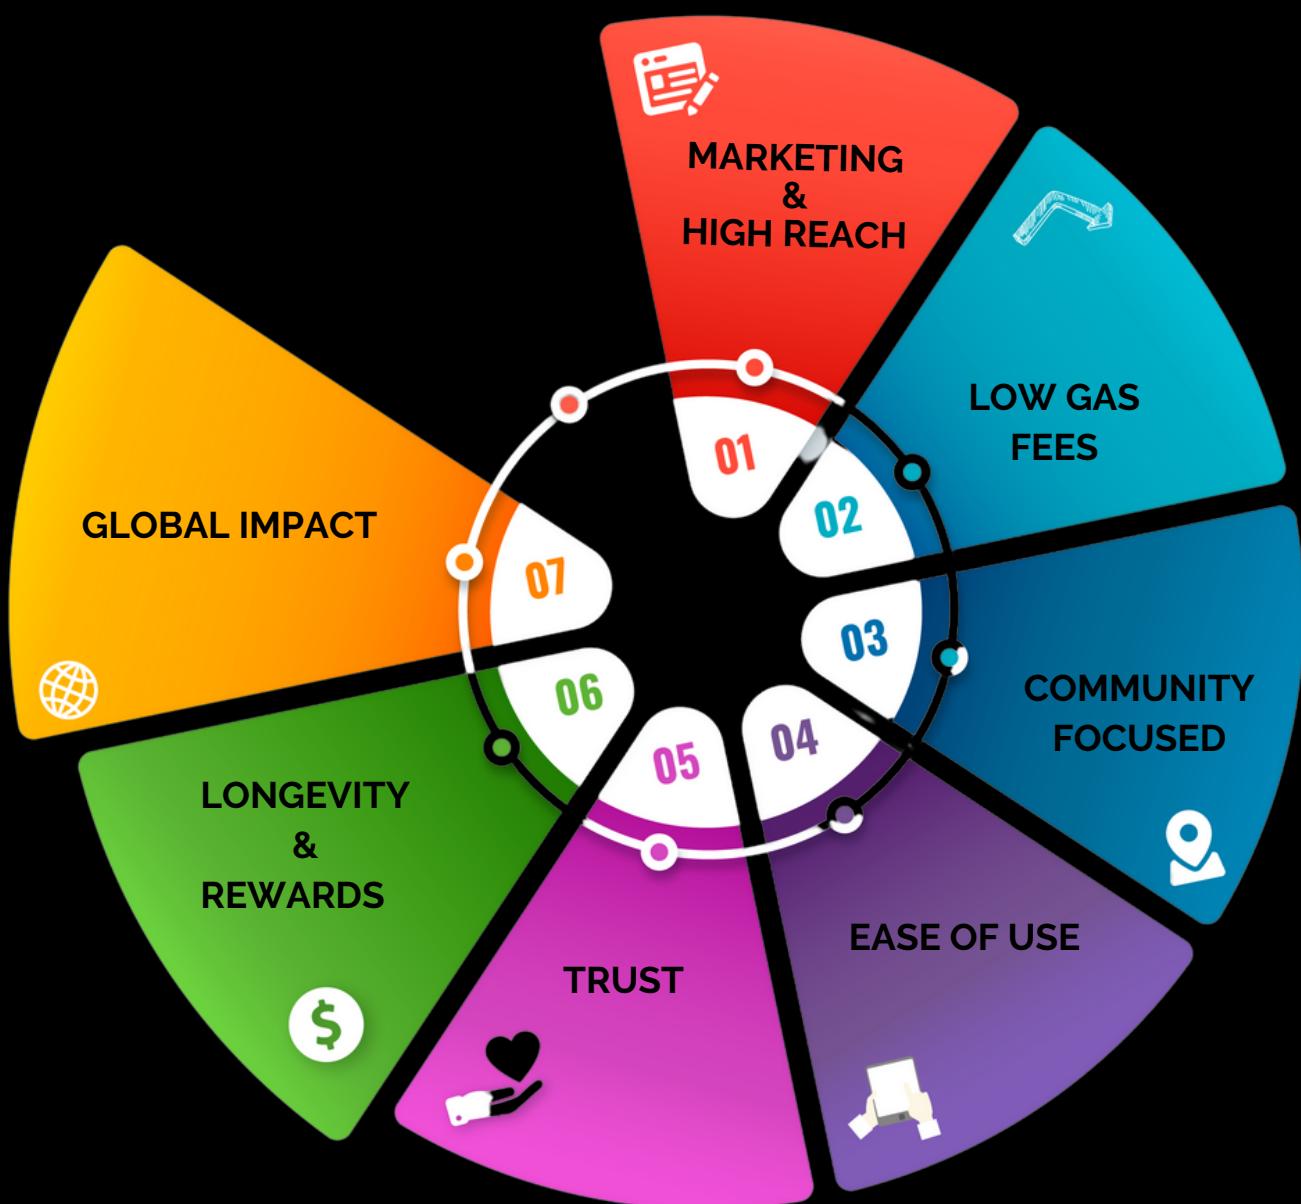

The fees associated with Speed-Fi transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payments. Speed-Fi is a secure and private cryptocurrency platform that keeps the investor's assets anonymous without compromising security.

Safe & Secure

Speed-Fi is a safe and secure platform and our technical team is continuously improving the security system to ensure the safety of platform.

Road Map

2022 Q3

- Marketing Campaign
- Contract Development
- Contract Audits
- Staking Platform Development - Completed before Presale
- DEX Development - 15+ Cross-Chain support
- Presale Launch
- Launch Staking platform on the day of Presale launch
- Launch Fully functional DEX on the day of PancakeSwap listing

2023 Q1

- Mass adoption of Ecosystem
- CEX listings
- Gaming License
- Web3 VR Play-To-Earn Car Racing Game Development
- Betting platform Development
- Roadmap V2 - Expansion of Ecosystem

2022 Q2

- Project Conceptualization & Research
- Team Development
- White Paper Development
- Develop & Launch Website
- Social Media Account setup
- Advertising Campaign

2022 Q4

- Mass adoption of Ecosystem
- CoinMarketCap listing
- Coin Gecko listing
- Lottery/Betting License
- Lottery Platform Finalized & Go Live
- LaunchPad Development & Launch
- CEX listings
- NFT Marketplace Development & Go Live

2023 Q2

- Marketing Campaign V2
- Web3 VR Play-To-Earn Car Racing Game - Go Live
- Betting platform Go Live
- CEX listings
- Expansion of Ecosystem - here the fun comes
